

XZ-YL16D-400040-B Art. 161799

## **Product features**

- Independent isolated adjustable power color temperature LED driver
- Flicker-free LED driver
- DIP control adjusts the current
- Output current 200...400 mA by DIP switch adjust
- Max. output power 16 W
- For luminaires with protection class II
- 5 years warranty

## **Product specifications**

### 161799 XZ-YL16D-400040-B

| Output current | Input voltage | Output voltage | Efficiency<br>@full load | Current accuracy | Power factor | Dimension<br>LxWxH (mm) |
|----------------|---------------|----------------|--------------------------|------------------|--------------|-------------------------|
| 200 mA         |               |                | 84%                      | ± 15 mA          | 0.5          | 400.00.05               |
| 250 mA         | 220240 Vac    | 00 40)/-       | 87%                      |                  |              |                         |
| 350 mA         | 220240 Vac    | 3040Vdc        | 87%                      | . 50/            | 0.5          | 126x38x25               |
| 400 mA         |               |                | 87.5%                    | ± 5%             |              |                         |

# **Electrical specifications**

## Mains voltage supply

| Rated input voltage range | 220240 Vac       |
|---------------------------|------------------|
| Max. input voltage range  | 198264 Vac       |
| Rated frequency range     | 50/60 Hz         |
| Max. input current        | 0.18 A @ 230 Vac |

# Protection against voltage peaks

| Withstand voltage    | l/p-o/p: 3.75 kVac, < 5 mA 60 sec |
|----------------------|-----------------------------------|
| Mains surge immunity | L-N 1 kV                          |

### **Output data**

| Output current tolerance | 200-250 mA ± 15 mA at rated input voltage range |
|--------------------------|---|
| Output current tolerance | 350-400 mA ± 5% at rated input voltage range    |
| No load output voltage   | 50 Vdc  |
| Ripple output current    | 5% (ripple = peak/average total 100 Hz)         |
| Output PstLM             | ≤ 1 at full load @ rated input voltage          |
| Output SVM               | ≤ 0.4 at full load @ rated input voltage        |

# Supplementary instructions

• The luminaire manufacturer is responsible for measuring and verifying the EMI compliance of the complete luminaire, as the level of radio interference will vary depending on the luminaire construction. Especially primary and secondary cable lengths and their routing may have a significant effect on radio interference.

# Protection

- Over voltage protection: Hiccup mode. Protection will trigger when load voltage exceed specified output voltage and will auto recover after the fault mode is removed.
- Short circuit protection: Hiccup mode. Protection device will trigger when short circuit and will auto recover after the fault mode is removed.

## **Dimensions**

#### Housing dimensions

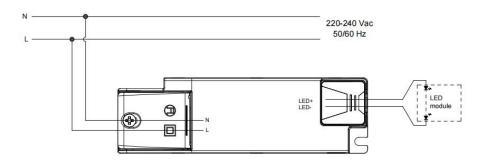

| Length (L) | 126 mm   |
|------------|----------|
| Width (W)  | 38 mm    |
| Height (H) | 25 mm    |
| Weight     | 0.067 kg |

### Packaging details

| Packing units | 100 pcs            |
|---------------|--------------------|
| Carton size   | 390 x 262 x 158 mm |
| Weight        | 7.35 kg            |

# Wiring diagram

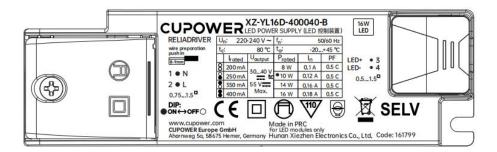

- All connections must be as short as possible to ensure good EMI performance.
- The luminaire wire should keep a certain distance from the LED power supply and other wires (5 10 cm is preferred).
- No secondary switches are allowed.
- Incorrect wiring can damage the LED.
- The wire must be well protected against short circuit.
