

Art. 163120

CE POHS

Product features

- Built-in non isolated adjustable power LED driver
- Supports 0...10V / PWM dimming
- Color temperature adjustable
- DIP control adjusts the current
- 12 V 0.1 A Auxiliary source
- Flicker free LED driver
- Output current 50...400 mA by dip switch adjust
- Max. output power 20 W
- For luminaires with protection class I
- 5 years warranty

Product specifications

163120 ID ELNCB 20/230/50-400 0-10V DIP B

Output current	Input voltage	Output voltage	Efficienc @ full load	Current accuracy	Power factor	Dimension LxWxH (mm)
50 mA	_	2560 Vdc	78%	± 15 mA	0.7	193x30x21
100 mA		2560 Vdc	84%		0.8	
150 mA		2560 Vdc	87%		0.9	
200 mA	220240 Vac 220240 Vdc	2560 Vdc	88%		0.9	
250 mA		2560 Vdc	88%		0.95	193830821
300 mA		2560 Vdc	89%		0.95	
350 mA		2560 Vdc	90%	± 5%	0.95	
400 mA		2552 Vdc	89%		0.95	

Electrical specifications

Mains voltage supply

Rated input voltage range	220240 Vac
Max. input voltage range	198264 Vac
Rated frequency range	0/50/60 Hz
Max. input current	0.2 A @ 230 Vac

Battery operation

Buttory operation		
DC voltage range	220240 Vdc

Errors excepted. We reserve the right to make alterations in the interest of improving our products.

Art. 163120

Supplementary instructions

- It is recommended that customers install under voltage protection and surge protection devices in the power supply circuit
 of lamps to ensure the safety of electricity consumption.
- The power supply is used in combination with the terminal equipment as a part of the whole lamp. Because the EMC
 performance is affected by LED lamps and wiring, the terminal is set in case the manufacturer needs to reconfirm the
 EMC of the whole device.
- The outputs of drivers cannot be in paralleled.
- Short circuit protection: Hiccup mode protection device will trigger when short circuit and will auto recover after the fault mode is removed.

Environmental specifications

Operating temperature	-20+55°C
Storage temperature	-25+85°C
Working humidity	10%90%
Store humidity	5%95%
Lifetime	at Tc 75°C: 50,000 hrs; at Tc 65°C: 100,000 hrs; @ 230 Vac
Maximum Tc temperature	75°C

Art. 163120

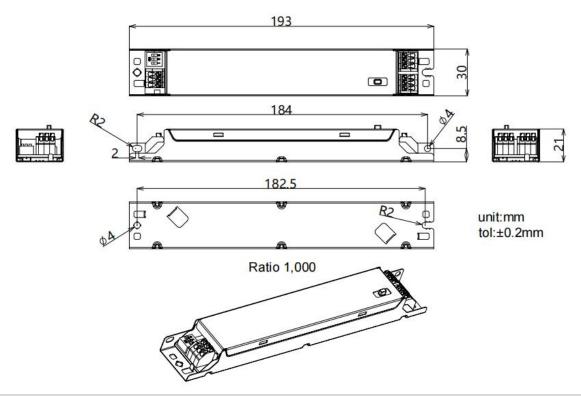

Dimensions

Housing dimensions

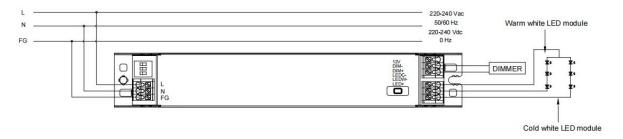

Length (L)	193 mm
Width (W)	30 mm
Height (H)	21 mm
Weight	0.11 kg

Packaging details

Packing units	60 pcs
Carton size	317 x 203 x 160 mm
Weight	7 kg

Wiring diagram

- All connections must be as short as possible to ensure good EMI performance.
- The luminaire wire should keep a certain distance from the LED power supply and other wires (5 10 cm is preferred).
- Incorrect wiring can damage the LED.
- The wire must be well protected against short circuit.
