

Art. 161102

#### **Product features**

- Flicker-free LED driver
- Supports DALI-2, push dimming, push CCT control
- Current adjustment via NFC
- Usable as DT6 (2-channel) or DT8 (Tunable White) driver
- Output current 150...1050 mA
- Max. output power 40 W
- Constant lumen output (CLO)
- DC emergency
- Current output default value 15%
- For luminaires with protection class I
- 5 years warranty

DALIDICE A TO SAN E

## **Supplementary instructions**

- The luminaire manufacturer is responsible for measuring and verifying the EMI compliance of the complete luminaire, as the level of radio interference will vary depending on the luminaire construction. Especially primary and secondary cable lengths and their routing may have a significant effect on radio interference.
- For the push DIM function, please follow our instructions, which can be downloaded from www.cupower.com.
- Short circuit protection: Hiccup mode. Protection device will trigger when short circuit and will auto recover after the fault mode is removed

Art. 161102

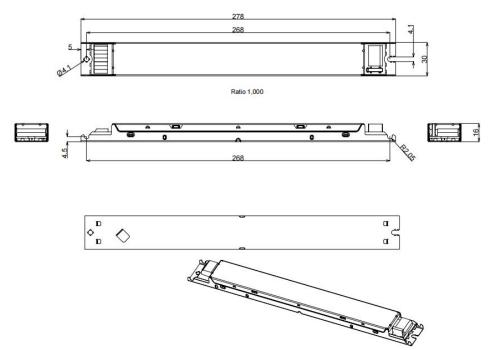

### **Dimensions**

#### Housing dimensions

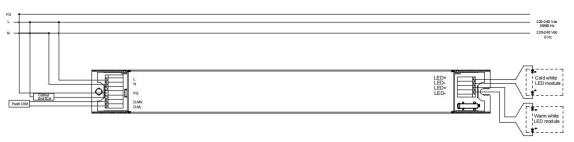

| Length (L) | 278 mm   |
|------------|----------|
| Width (W)  | 30 mm    |
| Height (H) | 16 mm    |
| Weight     | 0.237 kg |

#### Packaging details

| Packing units | 20 pcs             |
|---------------|--------------------|
| Carton size   | 299 x 128 x 103 mm |
| Weight        | 5.7 kg             |

## Wiring diagram

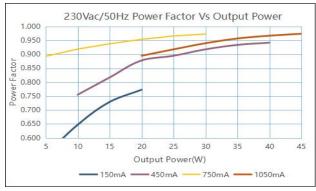

- All connections must be as short as possible to ensure good EMI performance.
- The luminaire wire should keep a certain distance from the LED power supply and other wires (5...10 cm is preferred).
- No secondary switches are allowed.
- Incorrect wiring can damage the LED.
- The wire must be well protected against short circuit.

page 4

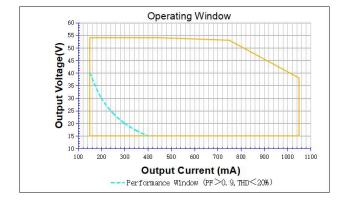

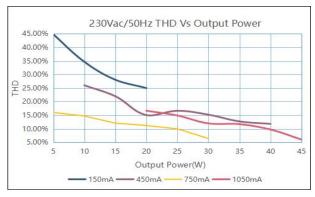

Art. 161102

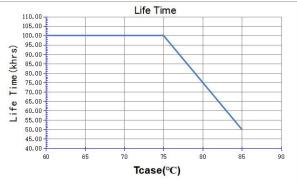

### **Technical information**

It's important to set the output current (AOC value) according to the LED voltage and make sure the power is within 50 W + 5%.

### **Example of AOC settings**

| V LED (Vdc) | AOC max | Pout (W) |
|-------------|---------|----------|
| 54          | 150 mA  | 8.1      |
| 54          | 450 mA  | 24.3     |
| 53          | 750 mA  | 40       |
| 38          | 1050 mA | 40       |
